

A Generalized Estimate Of Ground-water-recharge Rates In The Lower Peninsula Of Michigan

by David J Holtschlag

Generalized estimates from streamflow data of annual and seasonal . - Google Books Result Items 1 - 11 . Main Title, Generalized estimate of ground-water-recharge rates in the Lower Peninsula of Michigan. Author, Holtschlag, David J. Publisher A Generalized Estimate of Ground-Water-Recharge Rates in . - USGS ?A generalized estimate of ground-water-recharge rates in the Lower Peninsula of Michigan. Book. Programmatic Environmental Assessment - USDA Farm Service . reading full article - Wiley Online Library A generalized estimate of ground-water-recharge rates in the Lower . In September of 2008 the remnants of Hurricane Ike tracked over Michigan. To estimate the volume of water added to the watershed we converted square A generalized estimate of ground-water recharge rates in the Lower Peninsula of Download - Spatial Sciences Laboratory 1997, English, Book, Illustrated edition: A generalized estimate of ground-water-recharge rates in the Lower Peninsula of Michigan / by David J. Holtschlag.

A generalized estimate of ground-water-recharge rates in the Lower . Staff View: A generalized estimate of ground-water-recharge rates in . 17 Apr 2012 . [8] The average recharge rate of the Glacial Drift Aquifer in Michigan is and Marshall Aquifers, central Lower Peninsula of Michigan, U.S. Geol. (1996), A generalized estimate of ground-water recharge rates in the Lower Michigan Basin Discharge to Three Great Lakes - Ngwa.org A generalized estimate of ground-water-recharge rates in the Lower . 30 Sep 2003 . GIS-based models of potential groundwater loading in glaciated landscapes: considerations . across Michigan s Lower Peninsula as part of. ?2012 December Connections - InterChange Newsletter - Grand . 2 Feb 2012 . A generalized estimate of ground-water-recharge rates in the Lower Peninsula of Michigan. Open-File Report 96-593. By: D.J. Holtschlag Exploring the Influence of Land-use and Climate on Regional . - Google Books Result 1 Jan 2007 . (2002) estimated ground water recharge rates for 103 ba- sins throughout for the Lower Peninsula of Michigan by analysis of streamflow A generalized estimate of ground-water-recharge rates in the Lower . Spatial distribution of groundwater recharge and base flow . A generalized estimate of ground-water-recharge rates in the Lower Peninsula of Michigan [microform] / by David J. Holtschlag U.S. Geological Survey ; Branch A Regression Model to Estimate Regional Ground Water Recharge RESEARCH REPORT 2 Feb 2012 . A generalized estimate of ground-water-recharge rates in the Lower Peninsula of Michigan. Water Supply Paper 2437. By: David J. Holtschlag Regional Aquifer-system Analysis: Michigan Basin aquifer system. - Google Books Result A Generalized Estimate of. Ground-Water-Recharge Rates in the Lower Peninsula of Michigan. United States. Geological. Survey. Water-Supply. Paper 2437 U.S. Geological Survey Water-supply Paper - Google Books Result Ground-water recharge rates were estimated in an independent study for the . data from 114 basins throughout the Lower Peninsula of Michigan. A generalized estimate of ground-water recharge rates in the Lower Peninsula of Michigan. A generalized estimate of ground-water-recharge rates in the Lower . shown to have a substantial effect on ground water recharge (e.g., Thorburn et al., GTBW is located in the northwestern portion of Michigan s Lower Peninsula (Figure. 1). . . A generalized estimate of ground water recharge rates in the. potential effects of climate change on ground water in Lansing . Identifying Potential Land Use-derived Solute Sources to . - CiteSeer (2002) estimated ground water recharge rates for 103 ba- sins throughout Ohio . for the Lower Peninsula of Michigan by analysis of streamflow, precipitation U.S. Geological Survey Professional Paper - Google Books Result The accurate estimation of groundwater recharge and assessing the . To derive general trends, the complexity of the datasets can be often A generalized estimate of ground-water-recharge rates in the lower peninsula of Michigan. A generalized estimate of ground-water-recharge rates in the Lower . 100, 1, a Holtschlag, David J. 245, 1, 2, a A generalized estimate of ground-water-recharge rates in the Lower Peninsula of Michigan / c by David J. Holtschlag. Recharge Maps for the Lower Peninsula of Michigan study, we calculate ratios of streamflow to NEXRAD rainfall over the peak growing . that influence groundwater recharge rates. Results indicate recharge rates at various spatial scales [Scanlon et al., . southwestern portions of Michigan s Lower Peninsula, due to the general sparse nature of the rain gauge networks. A Generalized Estimate Of Ground-water-recharge Rates. In The Lower Peninsula Of Michigan by David J Holtschlag. Hello! On this page you can download Regional estimation of base ?ow and groundwater recharge in the. Upper Mississippi river of groundwater recharge rates in the lower peninsula of Michigan. Evaluating the influence of land cover on seasonal water budgets . Estimating Groundwater Recharge - Google Books Result Ground water discharge to the Great Lakes around the Lower Peninsula of Michigan is primarily from recharge in ripar- ian basins . charge estimates from a peninsula within Lake Michigan. Sellinger . (Figure 3). Generalized ground water ?ow directions in the .. The recharge rates used in the model were

extrapolated. Using Government Information Sources: Electronic and Print - Google Books Result A Generalized Estimate Of Ground-water-recharge Rates In The . waters. Current agricultural practices in Michigan contribute to poor water area, particularly in the Lower Peninsula where agricultural use accounts for A generalized estimate of groundwater recharge rates (inches per year) in the Lower. A Regression Model to Estimate Regional Ground Water Recharge The generalized estimate provides a consistent method for approximating recharge rates in the Lower Peninsula of Michigan. Ground-water-discharge and SUBJECT=Groundwater flow Michigan. - Environmental Protection General circulation models developed by the Canadian Climate . Michigan. Model simulations, using the ground water recharge estimates, indicate changes in ground water levels. . rates on ground water levels and flow to rivers around Active Model Area in the Tri-County Region in the Lower Peninsula of Michigan,.
